#### Welcome! Let's set up your first project.

### Welcome! Let's set up your first project.

### Install dbt Cloud

Install on your personal account dbtlearning2025

for these repositories:

All repositories
This applies to all current and future repositories owned by the resource owner. Also includes public repositories (read-only).

Only select repositories
Select at least one repository. Also includes public repositories (read-only).

with these permissions:

Read access to metadata

Read and write access to checks, code, commit statuses, pull requests, repository hooks, and workflows

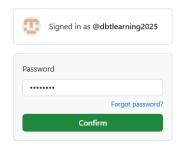

Install
Cancel

Next: you'll be directed to the GitHub App's site to complete setup.

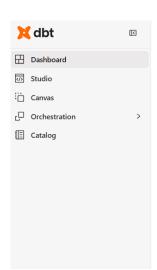

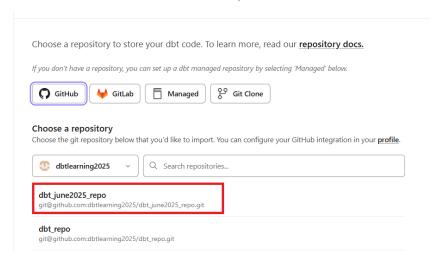

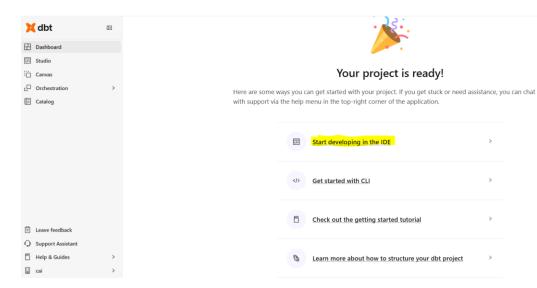

### Confirm access

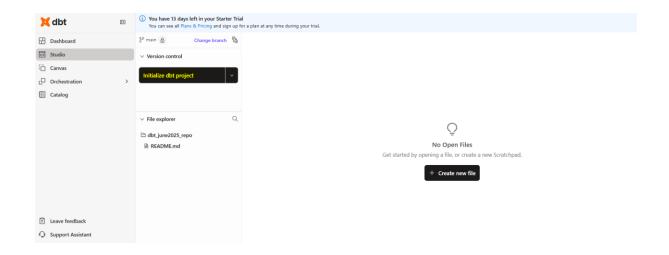

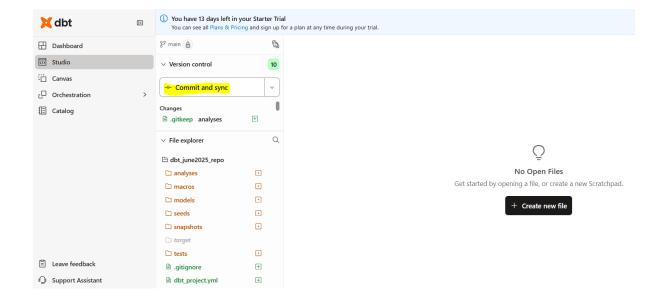

Tip: You are entering <u>sudo mode</u>. After you've performed a sudo-protected action, you'll only be asked to re-authenticate again after a few hours of inactivity.
